

Families and educators are in distress right now. FastTrackerMN.org can help!

What is FastTrackerMN.org?

- **A free online search engine for mental health services, substance use disorder treatment program openings, and other resources:** Search provider and service availability to cut wait times and find referral openings.
- **A Community Outreach Tool:** FastTrackerMN.org helps people find exactly what they need by allowing them to search by location, availability, services, insurance plans accepted and provider type. It offers professionals and the public access to information about services near them.
- **This open-source online tool for children, family members and even staff members!**
